

A GIFT FROM NATURE

GRADES K-5 MELANIE YUKOV

Join us for a new virtual class where you can connect with plants through your senses. Alongside herb and plant guide, Melanie Yukov, you will create a relaxing sleep pillow to keep and to give to a loved one. We will learn about these plants' gifts through song and a performance from our plant friends Lazy Lavender and Calming Chamomile. This hands on activity will allow you to creatively share the benefits of the plants you explore and show gratitude to your loved ones by sharing this special gift with them. All supplies will be provided.
