

Together or Apart, Booth Free has Heart

The Booth Free School Student Council would like you to place a hand or a heart in your window to spread positivity, kindness and togetherness! You can make the hands/hearts using construction paper. Then, hang them in your window for passersby to see. If you would like to share these symbols, snap a picture! Photos can be sent to clarks@region-12.org and will be put in a slideshow for our school community.
